### *Minute Taking*

- Latest minutes based on AI transcription are rather transcripts than a valuable high-level summary of key points and relevant outcomes
  - Expectation is that person responsible for minute taking summarizes and points out highlights / important key points of AI transcript
  - Minutes of previous meeting should be revised by the responsible before they will be approved

### **Discussions**

The meeting focused on rebranding the Cloud Dev Tools working group, with participants discussing potential new names and visions for the group. The group agreed that the current name may not accurately reflect their focus on developer productivity and modern tools. The discussion highlighted the need to balance attracting new projects and maintaining relevance to existing members. Participants agreed to continue brainstorming ideas both synchronously through a GitLab issue and asynchronously through a Google Doc:

 Eclipse Cloud Dev Tools Working Group : new mission statement and name - 2026 PP
